

*Presents the Excavator*

# *"Stag Bucket"*

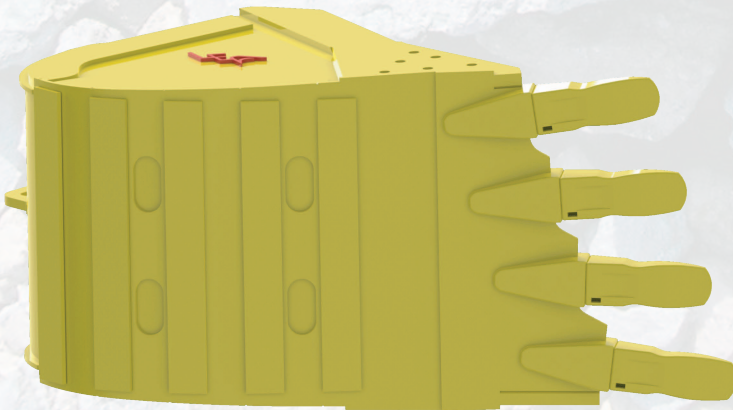

*Patent Pending* <sup>TM</sup>

*High Efficiency*  
*Improved Penetration*  
*Low Cost - Saves Energy*

*Staggered Tooth*  
*Angled Edge*

*Provides improved penetration digging advantage for abrasive and tough material applications such as shot rock, coral, frost, stratified materials, caliche, shale and highly compacted materials.*

*Your excavator will have improved penetration, applying the maximum breakout force individually to each tooth, using our patent pending "Staggered Tooth" technology*

# The "Stag Bucket"<sup>TM</sup>

Severe Duty - High Capacity - High Penetration

patent pending  
"Staggered Tooth"  
technology

Available for all model excavators

Staggered Tooth Angled Edge  
for high breakout force

Easily create flat trench bottoms

Highest quality manufacturing in USA,  
built to OEM specifications  
to fit any brand excavator.  
Thick alloy steel construction  
with replaceable MTG KingMet teeth
